

Why I decided to nominate for an EB position ...

Personal short presentation:

My name is Carlo, I'm 38 years old, married with Manuela (pediatric physio) and we have 3 children. I was born in Genoa but live 60 km from Venice. I was a bad runner (200-400 m) for 12 years and actually, I don't practice any sport.

I started to work in sport rehabilitation a few months after my Physiotherapy degree and I spent my time working with professional athletes and or teams. My principal interests are muscle injuries, ACL and shoulder instability rehabilitation. I like to work as part of the health team in my private center, in national teams and in sports clubs. I have worked in many sports over the last few years. I have also been involved in professional association committees for many years.

Group of Italian Sports Physical Therapist (GISPT) short presentation:

The Group of Italian Sports Physical Therapists (GISPT) is a young group which started in 1999. We joined IFSPT Membership in 2009. I first joined GISPT 10 years ago while I was completing my Postgraduate Certificate (PGC) in SPORT Rehabilitation at the University of Genoa. Although there was no official GISPT Executive Board (EB) and no official members in 2007, we were aware about IFSPT SPA Project and about the international SPT community. A group of us decided to develop new GISPT aims, create a new EB, a new Brand, an IFSPT Membership, to engage with scientific partners, to start PGC & conferences and to commence the Italian project to develop and get recognition of a national SPT Pathway in Italy.

When I was elected president of GISPT (in 2012) we were a small organization with few members of the EB. We weren't able to organize courses for instance. Over the last 5 years GISPT has grown to over 100 members, we are able to organize 2 to 4 educational courses every year, we hosted 2 international conferences in Turin (2015) and in Rome (June 2017) and we attended the last 4 IFSPT General Meetings. We actively support the IFSPT EB and in 2013 we included proposals to the GM (Cape Town). In June 2017 the GISPT SPT Pathway which I led with my colleagues was officially recognized by IFSPT.

GISPT is a very dynamic group and now, one of our new aims is support IFSPT to create linked and shared projects and support our sports physiotherapy community to reach these aims.

Which are the reasons for nominating for an EB position?

The Group of Italian Sports Physical Therapists is a good example of how an organisation can start small and grow into being an effective group with the right leadership and drive. Being President of GISPT over the last few years and working over the past 15 years in sport or association organizations has given me the opportunity to develop leadership skills and has given me the drive to work on progressing sports physiotherapy nationally and internationally. I am now at a stage in my life when I can transfer the drive that I put in Italian group and my personal positive energy and organization competencies to the IFSPT EB.

What you will offer to the organisation of IFSPT?

I always do my best. When I am asked to help in any professional project and I always try to achieve the aim. I offer my time, energy and expertise to IFSPT and its Member Organisations' (MO's) development and collaboration. Because *every MO is not enough alone to change national and international behaviors but MOs shared and linked within the IFSPT community can help drive change that all of us want.*

What aspects you can contribute to the EB.

My focus is to assist every MO who would like to develop its SPT pathway through a structured educational system. I would also like to help MOs share job opportunities. I can contribute to IFSPPT my knowledge and expertise in developing good systems to track education to help our international community.

Ramponi Carlo S.

Executive Board GISPT meeting

...

Point 3.

This executive board, Speaking about the opportunity to nominate some Italian member for a position in next EB IFSPT, agreed it would be great for national movement and for linking more Italian physio with International contest.

EB GISPT decided to nominate Carlo S. Ramponi, president of GISPT, as Italian candidate for a position in IFSPT board.

About a GISPT financial support to him to attend the annual international EB meeting, we are able to contribute by 2020. Carlo Ramponi agreed he support by yourself for 2018 and 2019 if it will be necessary.
